

# Weekly Status Report

**Week:** 3

**Team Name:** Team Sharks

**Team Members Present:** Tyler Venner, Alberto Ramirez, Jiarui Hou, Macy Chen

## 1. Summary of Progress

- Briefly describe what the team accomplished this week.
  - We finished the project plan and proposal after extensive research and discussion. We also set up github for all team members and discussed standard workflow going forward.
- Mention completed tasks, experiments, or deliverables.
  - Project Plan finished.
  - Standard Team workflow established.
  - Github/Git setup.
  - Data collection plan finalized.

## 2. Challenges or Issues

- List difficulties encountered (technical, data, coordination, etc.).
  - Deciding on a project scope that is suitable for the hours of work required.
  - Addressing statistical flaws in our original model idea.
- Note if help is needed from the instructor/TA.
  - We want to know if our statistical models and plans are feasible and correct.

## 3. Plans for Next Week

- List tasks to complete before the next meeting or deadline.
  - Using api wrapper to gather performance data (multiple people).
  - Scrape player contract value data (multiple people).
  - Merge these data sources (multiple people).
- Assign responsibilities where possible.

## 4. Action Items

Task	Responsible Member(s)	Due Date
Using api wrapper to gather performance data	Tyler Venner, Alberto Ramirez, Jiarui Hou, Macy	10/25/2025

	Chen (build individual modules)	
Scrape contract value data	Tyler Venner, Alberto Ramirez, Jiarui Hou, Macy Chen (build individual modules)	10/25/2025
Merge datasets together via name key.	Tyler Venner, Alberto Ramirez, Jiarui Hou, Macy Chen (build individual modules)	10/25/2025

## 5. Additional Notes

- Any announcements, scheduling conflicts, or resource requests.
  - Leonel Garibay-Estrada was not present after Wed 10/15. We are not able to contact him.
